

PALLET RACKING | Unirack Range

PALLET RACKING

You need it strong, well priced, safely installed and fast. Unirack will have you covered for your warehouse needs through our National Branches.

QUALITY

Unirack Pallet Racking has been tested, here in Australia, to meet and exceed the latest Australian Standards. AS 4084-2012

STOCK

With our branches throughout Australia holding massive stock levels we are here to help to get the job done fast.

EXPERIENCE

When buying from Unirack you will be dealing with experienced people who know what they are talking about.

LARGER RANGE

Our New Exclusive Unirack Profile has been designed to be stronger, more versatile and still cost effective.

- Increased Frame steel thickness for higher frame capacity
- Hi Tensile steel beams for better capacity
- New 50mm Pitch for better beam spacing
- 5 Beam Hook Connectors
