PALLET RACKING

Universal Racking System for Storing Multiple Pallets

This system offers the most economical, efficient storing and retrieval of pallets. It provides easy direct access to every pallet in storage and being available in an extensive range of sizes it is extremely versatile. This is why our Selective Racking System has been and still is the most popular choice for the past 10 years.

FEATURES

- Individual access to all pallets to full height of warehouse
- Simple stock rotation achieved
- Easy beam adjustment accommodates variable pallet heights
- Compatible with many handling equipment styles
- Conventional tolerance for floors when used to 10m high
- Lower level pallets can be located on the floor (picking pallets)
- Accessories available can accommodate every unit load type
- Economical shelving beams can be added for low level picking
- High average locations used 95%, for 100% accessibility, good stock rotation

SYSTEM CONCEPT

Average Locations Used	95%
Immediate Accessibility	100%
Stock Rotation	Very Good
Floor Utilisation	40%

APPLICATIONS

- Palletised Goods
- Carpet Storage
- Tyre Racks
- Archive Storage
- High rise Shelving

PALLET RACKING | UNIRACK RANGE

The Unirack Range of Pallet Racking is our premium range of racking. It was specifically designed & manufactured for us. In times where the market is flooded with low quality products and inconsistent racking, we made it our priority to deliver the service our customers need and offer premium quality as well as maintain consistent high standards for 20 years now. We invite you to take a look at our products and you will see the difference.

KEY FEATURES

- 50mm Slot/Pitch increments for finer adjustment of beam levels
- Premium Racking Solution - 20 year product warranty
- Thicker, stronger, galvanised uprights and Power-coated beams
- 5 Hook Connectors - more strength for a heavier duty application
- Various lengths, widths, heights available
- Heavy duty wrap around base plates with quality welds
- Safety locking system that locks together

PALLET RACKING | UNIDEX RANGE

The Unidex Range is our original and oldest range of Selective Pallet Racking, having stocked and sold it for 10 years. Over that time, we have fitted out supply warehouses, manufacturing facilities, retail centres, and other storage and distribution facilities with this range. Hence, we are confident that it lasts. The design has not changed since, so if you are looking at adding to an existing system, it will very likely match this range.

KEY FEATURES

- 76mm Slot/Pitch - the most common connection system in Australia
- Compatible with a number of existing systems
- Long lasting galvanised uprights
- Powder coated beams with 4 hook connectors
- Various lengths, widths, heights available
- Heavy duty base plates

MEZZANINE FLOORS & RAISED STORAGE AREAS

Maximise Warehouse Space with Mezzanine Floors

Mezzanine floors systems are a cost-effective way to maximise floor space and improve productivity in warehouse and factory environments.

At Unirack, we have three types of mezzanine variations: Racking, Longspan and Structural Steel Mezzanine Floors.

Racking Mezzanine Floor System

Rack-based mezzanines can be multi-tiered, doubling or tripling the available surface area

Longspan Mezzanine System

A cost-effective and flexible storage solution for those looking to maximise storage density

Structural Mezzanine System

Structural mezzanine floors are a heavy-duty solution constructed from structural steel posts and beams

SYSTEM CONCEPT

APPLICATIONS

- Parts Storage & Picking
- Instant Workshop
- Vehicle Storage
- Office/Retail Area
- Archive Storage

DRIVE-IN RACKING

Ideal For High Density Pallet Storage

Are your pallets evenly packed & stored? Do you need to maximise space? Do you have high-volume? Then give us a call and let us explain why Drive-In racking systems are more and more popular. With unique self-centring rails position pallets quickly, easily and safely. Works with conventional forklifts and perfect for maximising areas such as cool rooms.
